

Golf Instructors

At Persimmon we have a great driving range and short game area to practice and take lessons. We currently have three teaching professionals, our Director of Golf/Head Professional, Director of Instruction, & Assistant Professional. They each teach a variety of students from Junior golfers to advanced golfers. Contact them individually for their pricing on individual and group lessons or any questions you may have. You can find their lesson availability on Foretees under the lesson tab or contact them for special availability.

Chanlee Trump **Director of Golf** LPGA, Class A

I have been with Persimmon Country Club since 2020 and I have been teaching since 2020. I teach golf to all levels and ability and I enjoy teaching beginner students the most. I believe that it's never too late to learn the game of golf. I am an LPGA Class A Teaching Professional.

Chad Fribley **Director of Instruction**

I have been playing golf for 40 years and in the golf business for 30 years. I have been teaching since 2017, giving more than 5,000 lessons. I enjoy teaching players of all abilities and sharing my experiences as a player, caddy, and teacher. My favorite area of the game to teach is the short game because it is where we can have the biggest impact on our score. In my lessons I will use video and a high-end launch monitor.
